You bet – here you go:

2009 Wastewater Committee Accomplishments ~

Tacoma Conference Sessions for Wastewater -

LIDs - Sill a Viable Way to Fund Infrastructure WasteWater Committee

Making a Splash in the Local Community -Building Public Support for Class A Reclaimed Water

Published the articles in 2009 Summer Magazine on Mitigating outfalls and Mercer Island sewer line replacement – meeting goal for one article per year.

Celebrating a total of 19 members. ***12 new members this year!*** – Meeting goal for 3 new members

Established new speaker series for committee meetings

Established networking lunches for committee members attending meetings

Updated committee mission and goal document

Held committee meetings in Feb. April, June, August, October with last one to be held in December.

Improved committee web page by adding:

1. **Resource Section:** This is where we post items for other agencies to use as templates or starting points. It includes policies, forms, flyers – etc. We posted flyers on proper wipe disposal to post in this new category.
2. **Outreach & Education:** Members can post power points that are used at conferences or committee meetings, speaker forum where contact and topic information is posted and post links to the articles we had published from the quarterly magazine.
3. **Highlight:** Post a different photo now and then to highlight something of interest on the page

Bobbi, do you have a short list of accomplishments this year so I can report on it at the Board dinner before the conference?

Toby

Hi Toby – can you please let us know the schedule for submitting articles – we have a couple lined up but need to know the timeframe for submittal and for our committee's update. Thank you

Bobbi Wallace
Surface and Wastewater Manager
