Richard Weston, CPFP
Fleet Svcs Manager
Thurston County
9605 Tilley Rd S
Olympia, WA 98512-1009

Dear Mr. Weston,

Congratulations on becoming an APWA Certified Public Fleet Professional! This outstanding accomplishment demonstrates your professionalism, expertise and personal dedication to advancing public works services in your community, and highlights your leadership as a public fleet professional.

During tough economic times, local governments are often asked to do more with the same or less funding. By obtaining your CPFP certification, you have proven you have the skills to move your fleet operations forward in this ever changing environment. Your employer should feel very confident that your knowledge, skills and training will benefit your local government and keep the fleet rolling.

Again, we would like to congratulate you on your certification and on taking you and your fleet to the next level!

Sincerely,

A handwritten signature in black ink, appearing to read "Larry W. Frevert".
